JULIE LAI

(224)343-2446 ⋄ julielai@berkeley.edu ⋄ https://github.com/juliejlai/data-science

EDUCATION

University of California, Berkeley

M.S. in Information and Data Science   August 2020 - August 2021
College of Letters and Science, B.A. in Physics and Astrophysics   August 2016 - May 2020

WORK EXPERIENCE

Bioinformatics Intern   May 2019 - June 2020
Finkbeiner Lab, Gladstone Institute of Neurological Disease   *San Francisco, California*
· Refined semi-supervised machine learning models with Python to predict ALS using patient genomic data
· Visualized trends in patient genomic data using matplotlib and seaborn graphs
· Compacted large amounts of patient genomic data into a concise dataframe of patient versus variants

Astrophysics Research Assistant   February 2018 - February 2019
Nugent Research Group   *Berkeley, California*
· Categorized behavior supernovae light curves to understand causes a supernova's final explosion
· Fitted H-alpha peaks to Gaussian curves using Python to determine significance compared to noise

PROJECTS

Predicting Alzheimer's   November 2020
· Using a Kaggle Dataset of MRI Segmentation Images to classify different stages of Alzheimer's dementia
· Classifying images using a variety of models including Keras, Naive Bayes, and SVC
· Filtering the data through dimension reduction

Modeling Stellar Spectra   May 2020
· Built a generative model to predict what a stellar spectrum should look like for a given set of stellar properties using linear models and MCMC optimization
· Used this model to infer the properties of stars by fitting their spectra
· Visualized predicted spectra and properties of stars using matplotlib and seaborn

LEADERSHIP

Media Director   January 2019 - May 2020
The STEMinist Chronicles   *Berkeley, California*
· Executing the photoessay pipeline which involves interviewing the individual, transcribing the interview, and editing the photoessay
· Promoting representation of women in STEM by publishing photoessays on social media platforms and reaching audiences larger than the university

Cultural Peer Mentor   August 2018 - May 2020
Berkeley International Study Program   *Berkeley, California*
· Providing guidance and resources to visiting international students to make successful cultural and academic transitions
· Organizing events in the Bay Area to explore American culture that is inclusive for a large group of students of different backgrounds

STRENGTHS

Technical	Python (numpy, pandas, scikit-learn, matplotlib, seaborn, Altair), R, SQL, JavaScript (D3, Vega-lite), Tableau, Microsoft Excel, LaTeX, Bash, LabView,
Graphic Editing	Adobe Photoshop, Adobe Lightroom, Adobe Premiere Pro, Adobe Illustrator, Procreate
Languages	Conversational Chinese and Spanish
